Wholesale Brochure 2019*

Wholesale Cut Flowers from Mill Pond Flower Farm in the Scottish Borders

Beautiful Flowers

Throughout the seasons we have the best flowers and foliage that can be grown. By working with the weather and growing plants that enjoy our climate we can provide truly vibrant, quality blooms

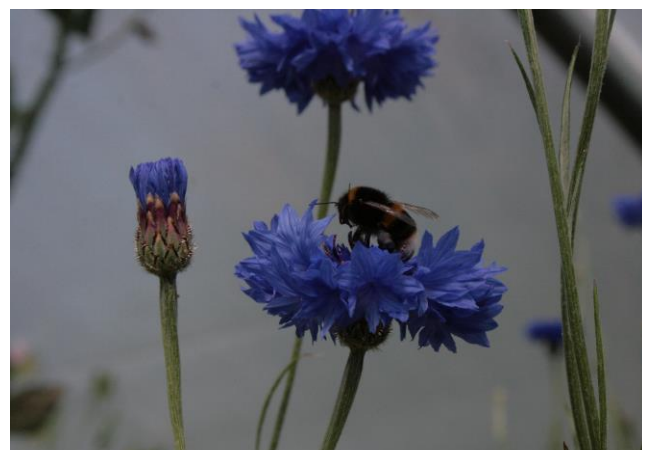

Fragrant Flowers

No chemicals, no fridges and the finest choice of varieties means that our flowers have fabulous scent that fills a room with natural perfume

Sustainable Flowers

We grow flowers that suit our conditions, close to where they are used, without chemicals or artificial fertilisers. We do our very best to use resources wisely and well.

Wholesale flowers are available for sale to:

Wedding and Event Florists

From planning, to booking, to delivery, we can help you make your client's day truly special by supplying high quality, gorgeous flowers.

Retail Florists

We can provide regular deliveries of a wide variety of fresh cut flowers to local florists.

Flower Arrangers and Flower Clubs

If you're arranging flowers for pleasure we can provide the raw materials for you to create your floral vision.

Picked when you order

Our flowers are cut to order so when you receive them they are literally 'fresh as a daisy'!

Why buy your flowers from us?

Local vs Global

40 years ago the majority of cut flowers were grown in the UK. Since then the UK cut flower industry has been affected by massive importing of flowers from across the world, enabled by cheap fuel and labour. This has reduced the types and varieties of flowers available as many traditional varieties were not ideal for transporting long distances. It also meant increasing use of chemical herbicides and pesticides on the flowers.

All our flowers are grown here at Mill Pond Flower Farm in the Scottish Borders. They travel only from the field to the workshop for conditioning, then on to you. We use no chemical fertilisers, herbicides or pesticides – the field is abuzz with insects, including our honey bees, and we certainly aren't short of weeds!

Freshness

Our flowers can be in your hands within a few hours of picking. They will be picked especially for your order.

Variety

We grow over 200 varieties of flowers and foliage so that we have the longest season and the greatest choice for customers. Your flowers will not look like anyone else's flowers. In addition to listed varieties we also have unusual and less common flowers and are testing new ones all the time – let us know if you come across something you think would be good to grow as cut flower.

Scent

Our flowers smell delicious! Scent has been bred out of most commercially available cut flowers so they last longer for travel. We grow flowers especially for their scent and add in herbs and foliage that bring additional fragrances.

Value

We offer real value. You only pay for what you order. If you want 3 stems that's all you pay for – no wastage and no extra costs. Our flowers are excellent quality and if you're not happy we will replace free of charge.

Service

Mill Pond Flower Farm offers a personal service, we would like to get to know you and what you like so that we can give provide you with the flowers that suit your business and style. We grow the flowers ourselves and know what they can do. And we're on the end of the phone, or on email if you have queries, questions or suggestions.

See how we grow

We are happy for you to come to the flower field to see how we work – give us a ring to arrange a visit and help us find out how we can grow what you need to help your passion for flowers to develop.

The Practicalities

Ordering

You can order by phone, email, text or online.

Ordering in advance

We're happy to accept provisional orders for colourways and quantities for specific dates ahead of time. For example, if you have a wedding booking for pale frothy flowers on 21 May we can agree to provide flowers, advise on what might be available and will keep in touch with you about availability, then you can order the exact flowers you require by number of stems or buckets nearer the time.

We are affected by the weather as you might imagine, and can't guarantee specific flowers, but will do our very best and will always let you talk to you to try to provide what you need.

There is no minimum order – order what you need and that's all you pay for!

Current Availability

When we have flowers and foliage available that aren't already pre-ordered, we'll send an availability email to our mailing list, listing varieties, colours and quantities. If you'd like to be added to our mailing

Delivery and Collection

You are welcome to collect flowers from us Mon-Fri or Saturday morning by arrangement. Please let us know when you order.

We deliver flowers on a route from the eastern Borders to Edinburgh most weeks throughout the Spring, Summer and Autumn. We are also happy to deliver to Newcastle, North Tyneside, Northumberland and Roxburghshire on request.

Delivery Charges

Orders up to £119 £12

Orders over £120 Free of charge

Payment

Our prices are reviewed and updated in January each year. They rarely vary throughout the season and will be increased only in exceptional circumstances.

During 2019, the impact of the UK leaving the EU may cause unexpected costs or changes in our trading environment, so we reserve the right to update our Price List in this eventuality.

A detailed invoice for your order will be sent by email. Please raise any queries within 7 days.

Payment by Bank Transfer must be made within 14 days of invoice. No further orders can be accepted unless payment in full is made when requested.

New customers may be asked to pay for orders in advance.

Feedback

We want to provide you with the best possible flowers, foliage and service. If you aren't happy about our service or produce, please tell us and we'll try our best to sort it out.

If you like what we do please tell others. We value your support and appreciate all positive postings on social media. If you want to tag us, please go ahead
